

This Week

The median list price in ENCINITAS, CA 92024 this week is \$1,699,000.

Even though the days-on-market is trending higher, so is the Market Action Index at these inventory levels, providing a neutral outlook for the market.

Supply and Demand

- The market has started cooling and prices have been flat for several weeks. Since we're in the Seller's zone, watch for changes in MAI. If the MAI resumes its climb, prices will likely follow suit. If the MAI drops consistently or falls into the Buyer's zone, watch for downward pressure on prices.

The Market Action Index answers the question "How's the Market?" by measuring the current rate of sale versus the amount of the inventory. Index above 30 implies Seller's Market conditions. Below 30, conditions favor the buyer.
